2008/6/19

Features: The Scribe - Engraving Pen is used to write on hard steel, metal, glass, stones, ceramic, plastics etc. also useful for deburring, to reshape the cut on the screwhead or broken bolts to ease removal, and naturally, to personalise tools and other equipment in the workshop.

- To obtain the best marking, hold the pen near the front at sharp angle.

Lubricator:

- Scribe engraving pen needs no Lubrication.

Hose Fitting:

- Before hoses are connected to the tool, blow them clean with a blow gun. If the pressure is too low the pen will not work satisfactorily.
